PROJECT SCOPE: FOSTEX Erasmus+ project aims to fill the gap in the area of specialised services for the textile sector by upgrading one textile centre in Morocco and by establishing three operational advanced textile innovation centres, one in Morocco and two in Jordan.

MAIN OBJECTIVE:

- To foster the university-industry collaboration;
- To support the development of innovation in the textile sector in Morocco and Jordan;
- To generate an ecosystem of advanced textile materials.

FOSTEX Erasmus+ has the purpose to upgrade the textile centre existing at ESITH and to establish a new centre at UH2C, both Moroccan Universities, transforming them into textile innovation centres, providing advanced and specialised services to companies in the first place. In parallel, the involved Jordanian universities, JUST and BAU, will set up new innovation centres to overcome the lack of specialised support from Higher Education Institutions in the country, giving the possibilities to the companies of the sector to invest in quality, innovation and to design added value products.
